CHAPTER 1

Introduction

Welcome to the *WCBS schoolPORTAL Weixin / WeChat Messaging Setup Administrator Guide*, a guide for System Administrators setting up Weixin / WeChat messaging in WCBS software.

This Guide explains:

- » How System Administrators register your school's Weixin / WeChat Enterprise Account in WCBS schoolPORTAL, linking the two. This is the first step towards using your WCBS software to send messages to Weixin / WeChat users.
- » How you enable staff, contacts, parents and pupils to register / subscribe to receive your school's messages.
- » How to disable Weixin / WeChat messaging in WCBS schoolPORTAL.

About Weixin / WeChat

Weixin / WeChat is an instant messaging and social networking app originating in China and now with over 930 million active users around the world. It allows smartphone users to send messages and share news, photos, videos and web links in a similar way to Facebook and WhatsApp. Using Weixin / WeChat, schools can 'broadcast' or 'push' messages to subscribers directly from 3sysACADEMIC.

Weixin / WeChat are essentially different versions of the same core application. Weixin is only available to users registered with a Chinese telephone number, while WeChat is available to any international user. Schools can send messages to users of either version via the 3sysACADEMIC **Messaging** module.

WCBS software has been enhanced so that school customers can use it to send Weixin / WeChat messages to staff, contacts, parents or pupils who have registered with / subscribed to their feed.

About Setting up WCBS Software for Weixin / WeChat Messaging

To enable your school to send Weixin / WeChat messages using its WCBS software:

1. ***Your school must register a Weixin / WeChat Enterprise Account.***
The WCBS Messaging Service can use any existing Weixin / WeChat Enterprise Account. The WCBS Messaging Service communicates with Weixin / WeChat using the official API. This service must be able to communicate with the Weixin / WeChat API via a fixed IP address using the recommended port 80.
2. ***Your System Administrator must link your school's Weixin / WeChat Enterprise Account to its WCBS software.***
This is done using WCBS schoolPORTAL. More information is provided in this guide.
3. ***Your message recipients must download the Weixin / WeChat app.***
The pupils, contacts, parents and staff that you want to message also need to have a Weixin / WeChat account.
4. ***Staff must register to receive your Weixin / WeChat messages.***
Staff do this using 3sysACADEMIC.
5. ***Pupils, contacts and parents must register to receive your Weixin / WeChat messages.***
Pupils, contacts and parents do this using WCBS schoolPORTAL.
6. ***The Messaging module must be available in 3sysACADEMIC.***
Weixin / WeChat messages are sent and managed using the **Messaging** module in 3sysACADEMIC. Staff responsible for sending Weixin / WeChat on behalf of your school should be given access to this module by your System Administrator.

Once these steps have been completed, you are ready to start sending Weixin / WeChat messages to registered users.

 **More Details:** For information about sending Weixin / WeChat messages, see the *3sysACADEMIC Weixin / WeChat Messaging User Guide*.

Before you Begin

Before you can link it to your WCBS software, you need the following information from your Weixin / WeChat Enterprise Account. You will need to enter this information and upload the QR code as part of the linking process.

- » Corporation id.
- » Application secret.
- » Application agent id.
- » Address book sync secret.
- » QR code.

About the Weixin / WeChat Message Registration / Subscription Process

Once your System Administrator has linked your school's Weixin / WeChat Enterprise Account with WCBS schoolPORTAL, staff, pupils, contacts and parents can subscribe to your Weixin / WeChat messages.

The registration / subscription process is as follows:

1. You add your school's Weixin / WeChat Enterprise Account details to WCBS schoolPORTAL.
2. Your System Administrator sends a registration URL to relevant staff, contacts and / or pupils, e.g. in an email. Contacts and / or pupils can also be directed to the **Weixin / WeChat registration** button on their **My Details** screen within WCBS schoolPORTAL.
3. Recipients click on the URL or the **Weixin / WeChat registration** button and complete the subscription process via 3sysACADEMIC or WCBS schoolPORTAL.

Staff subscribe using 3sysACADEMIC, while pupils and contacts subscribe using WCBS schoolPORTAL.

Users can then receive Weixin / WeChat messages sent by your school.

 **Note:** You cannot impersonate a contact or pupil in WCBS schoolPORTAL and register on their behalf.
